

Leadership in Action Day 1 Professional Program

Description:	This program provides introduces nurses to the concept of values based leadership. Nurses will investigate different leadership styles and understand how authentic leadership builds credibility, respect and supports a positive culture. In addition nurses will analyse their own leadership capabilities and learn strategies to improve their skills. This program is designed to support nurses to explore their own personal values and leadership style.
Learning Objectives	At the conclusion of this study day, the participant will be able to <ul style="list-style-type: none"> • Explore personal skills in values based leadership strategies within the organisation • Identify the impacts of positive and negative workplace cultures on an organisation and how this effects patient safety • Describe how successful change is managed in the organisation • Understand how to prepare for and manage change as an individual
What participants say:	<i>'Leadership traits and accepting the organisation's values and mission statement. Understanding your leadership style allows an understanding how others work. '</i> <i>'Group activities sparked interesting conversation.'</i>
Who should attend?	All nurses and health care professionals working in a healthcare service. All nurses working at SCGOPHCG.
