

Sepsis unzipped Clinical Program

Description:	This two (2) part in-service series is a blended learning opportunity based on the popular 'Surviving Sepsis Clinical Program'. It is expected that participants will complete the Sepsis Self-Directed Learning Package prior to attending so they can actively participate in the workshops delivered.						
Learning Objectives:	By attending the two part in-service program the learner will: <ul style="list-style-type: none"> • Complete a patient assessment, including identifying signs & symptoms and abnormal diagnostic results • Describe the collaborative management of sepsis. 						
What participants say:	This program format is new program in 2019.						
Who should attend?	Nurses and other health professionals working in a healthcare service.						
Program drivers:	Training Needs Analysis; Participant feedback; Supportive of National Safety & Quality Health Service Standard 8.						
Program preparation:	Completion of the Sepsis Self Directed Learning Package available on the Learning Hub in Health Point.						
Facilitator:	Sam Schoen Staff Development Educator Professional Development Centre for Nursing Education SCGH.
