

Charlie's study support group Professional program

Description:	These monthly 1 hour informal sessions are designed to support health professionals who are studying, or considering study, to link with each other and with experienced researchers and educators and to make postgraduate study a less isolating and stressful experience. Participants will have the opportunity to share ideas, experiences and ask questions about navigating a course of study while balancing work, study and home responsibilities. There is also the opportunity to arrange individual support sessions with research and education facilitators.	
Learning objectives:	<ul style="list-style-type: none"> Informal discussion session where participants are encouraged to share their experiences of study, ask questions, share tips and tricks to manage a work, study, home balance. 	
Who should attend?	All nurses and health care professionals working in a healthcare service.	
Program drivers:	Training Needs Analysis; Postgraduate supportive program.	
Program preparation:	Completion of learning activities via online learning (Moodle).	
Facilitator:	Sue Slatyer RN PhD, BN(Hons) Research Fellow Centre for Nursing Research SCGH	Anne Kimberley RN MNursEd, BSc(Nurs) Nurse Educator Centre for Nursing Education SCGH
